I have owned a 2014 Mazda 6 auto Tourer now for nearly a year and travelled over 20k in this time. I have had a couple of issues. Firstly, prior to a scheduled service at around 38k, I had an oil warning light flash up regarding the oil pressure. The advice being to stop driving and contact Mazda Service. The issue turned out to be contaminated oil, which was resolved under the manufacturer's ...

~~Mazda 6 problems | Ask Honest John | Honest John~~

Can oil level rising cause problems? Yes, engine oil diluted with diesel is a poor lubricant, premature engine wear will occur and engine life will be reduced. Furthermore, if the oil level was to rise too high oil seals can be damaged and in the worst case scenario oil could be drawn into the intake system which would lead to total engine loss if this wasn't caught early.
