Launch your Medical Assisting career with Kinn ' s Medical Assisting Fundamentals: Administrative and Clinical Competencies with Anatomy & Physiology! This practical, hands-on text features an easy-to-understand writing style and detailed visuals designed to help you master all the Medical Assisting knowledge, procedures, and skills needed for career success. Based on trusted content from the bestselling Kinn ' s product suite, this brand-new text and its accompanying resources incorporate the latest standards and competencies throughout, as well as approachable coverage of math, medical terminology, soft skills, and anatomy and physiology. Easy-to-grasp writing style is appropriate for all levels of learners in all types of Medical Assisting programs. Trusted Kinn ' s content supports the following exam plans: CMA from the American Association of Medical Assistants; RMA and CMAS from American Medical Technologist; CCMA and CMAA from the National Healthcareer Association; NCMA from the National Center for Competency Testing; and CMAC from the American Medical Certification Association. Emphasis on anatomy and physiology — along with pathology, signs/symptoms, diagnostic procedures, and treatments — enables you to meet key competencies. Strong focus on medical terminology includes feature boxes that highlight chapter-related medical terminology to help you learn word parts, pronunciation, and definitions. Math exercises embedded throughout the text challenge you to sharpen your math skills. Procedures are mapped to CAAHEP and ABHES accreditation standards down to the step, offer rationales for each step, and can be conveniently performed in the classroom. Customer Service boxes in appropriate chapters help you develop the soft skills that employers seek when hiring Medical Assistants. Applied learning approach introduces a case scenario at the beginning of each chapter and then revisits it throughout the chapter to help you understand new concepts as they are presented. Chapter learning tools include vocabulary with definitions, critical thinking applications, and content that ties directly to the order of learning objectives. Pharmacology glossary of the top 100-150 most common over-the-counter and prescription medications gives you quick access to pronunciation guides, generic and trade names, and drug classification.

Ethics in the era of managed care This collection of AMA Council Reports from 1990 to 1997 examine a variety of ethical issues concerning managed care. Report topics include financial incentives to limit care, cost containment involving prescription drugs, restrictions on disclosure in managed care contracts, ethical issues in negotiating discounts for specialty care, capitation, and more. An analysis of current issues in medical ethics is also included.

This competency-based learning system covers the administrative, clinical, and general areas necessary for entry-level employment as identified by the medical assistant role delineation study issued by the American Association of Medical Assistants. A listing of role delineation areas in each unit and in Appendix A make it easy to locate specific skills within each competency. A unit on related therapies presents information on complimentary and alternative treatments.

We're pleased to introduce the fourth edition of Lippincott Williams & Wilkins' Comprehensive Medical Assisting, the medical assisting text designed to meet your challenges. This dynamic package of text and resources represent more than just a textbook, instead providing a suite of learning resources. This is the one text aimed at making sure that every graduate can quickly change their cap and gown for a set of scrubs and immediately be a vital member of the medical office. We do this by: Providing the content in an engaging style that speaks to students. Putting pedagogy to work in the text through key features like patient education boxes, competency checklists, procedure boxes, etc. Placing students in the real environment in through our web-based EMR and PMS software package. Showing what we teach through skills videos that demonstrate the procedures and skills described. Constantly reinforcing the learning through additional online ancillaries including animations, ESL resources, etc. Helping instructors lessen planning time, with robust instructor resources. A competency spreadsheet helps faculty members and students track their progress through the material. New content in the fourth edition focuses on addressing crucial changes in policy and technology. Without changing the engaging writing style we're known for, we've made sure that the content is up-to-date and in-line with the needs of the market. We've added content on emergency preparedness, a crucial topic in today's medical office. In addition, instructors will be happy to find the latest CAAHEP and ABHES competencies clearly addressed throughout the text.

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New practicum and externship activities on Evolve provide practice with real-world scenarios.
