The classic guide to working from home and why we should embrace a virtual office, from the bestselling authors of

Online Library Remote Office Not Required

Rework “A paradigm-smashing, compulsively readable case for a radically remote workplace.”—Susan Cain, New York Times bestselling author of *Quiet*

Does working from home—or anywhere else but the office—make sense? In *Remote*, Jason Fried and David Heinemeier Hansson, the founders of

Online Library Remote Office Not Required

Basecamp, bring new insight to the hotly debated argument. While providing a complete overview of remote work's challenges, Jason and David persuasively argue that, often, the advantages of working "off-site" far outweigh the drawbacks. In the past decade, the "under one roof" model of conducting work has

Online Library Remote Office Not Required

been steadily declining, owing to technology that is rapidly creating virtual workspaces. Today the new paradigm is “move work to the workers, rather than workers to the workplace.” Companies see advantages in the way remote work increases their talent pool, reduces turnover, lessens their real estate footprint,

Online Library Remote Office Not Required

and improves their ability to conduct business across multiple time zones. But what about the workers? Jason and David point out that remote work means working at the best job (not just one that is nearby) and achieving a harmonious work-life balance while increasing productivity. And those are just some of the perks to be

Online Library Remote Office Not Required

gained from leaving the office behind. Remote reveals a multitude of other benefits, along with in-the-trenches tips for easing your way out of the office door where you control how your workday will unfold. Whether you're a manager fretting over how to manage workers who "want out" or a worker who wants to achieve a

Online Library Remote Office Not Required

lifestyle upgrade while still being a top performer professionally, this book is your indispensable guide.

For too long our lives have been dominated by the ‘under one roof’ Industrial Revolution model of work. That era is now over. There is no longer a

Online Library Remote Office Not Required

reason for the daily roll call, of the need to be seen with your butt on your seat in the office. The technology to work remotely and to avoid the daily grind of commuting and meetings has finally come of age, and bestselling authors Jason Fried and David Heinemeier Hansson are the masters of making it work at tech company 37signals.

The future isn't about where we will work, but how. For years we have struggled to balance work and life, with most of us feeling overwhelmed and burned out because our relationship to work is broken. This "isn't just a book about remote work. It's a book that helps

Online Library Remote Office Not Required

us imagine a future where our lives—at the office and home—are happier, more productive, and genuinely meaningful” (Charles Duhigg, best-selling author of *The Power of Habit*). *Out of Office* is a book for every office worker – from employees to managers – currently facing the decision about whether, and how, to

Online Library Remote Office Not Required

return to the office. The past two years have shown us that there may be a new path forward, one that doesn't involve hellish daily commutes and the demands of jam-packed work schedules that no longer make sense. But how can we realize that future in a way that benefits workers and companies alike? Based on

Online Library Remote Office Not Required

groundbreaking reporting and interviews with workers and managers around the world, *Out of Office* illuminates the key values and questions that should be driving this conversation: trust, fairness, flexibility, inclusive workplaces, equity, and work-life balance. Above all, they argue that companies need to listen to their

Online Library Remote Office Not Required

employees – and that this will promote, rather than impede, productivity and profitability. As a society, we have talked for decades about flexible work arrangements; this book makes clear that we are at an inflection point where this is actually possible for many employees and their companies. Out of Office is about so

Online Library Remote Office Not Required

much more than zoom meetings and hybrid schedules: it aims to reshape our entire relationship to the office.
