This title was first published in 2002. The interest in becoming globally competitive through network strategies, particularly networks between small and medium-sized firms in local business communities, is high among academic researchers, economic development agencies and growth orientated firms. Important contributions to our understanding of the strategic use of networks are coming from a number of disciplinary and theoretical perspectives. This volume provides a unique opportunity to both synthesize this diverse literature and report the results of original research. It is particularly relevant to scholars of business and management, geography and economics

The Japanese motor industry worldwide.

A research bulletin examining the Japanese automotive industry's impact worldwide.

A behind-the-scenes look at Lexus’s surprising twenty-year success story—in a revised new edition In the 1980s, German brands BMW and Mercedes-Benz dominated the luxury car market and had little reason to fear competition from Japan. But in 1989, Toyota entered the market with the Lexus LS 400, a car that could compete with the Germans in every category but price—it was US\$30,000 cheaper. Within two years, Lexus had overtaken Mercedes-Benz in the United States and made a stunning success of Toyota’s brave foray into the global luxury market. Lexus: The Relentless Pursuit reveals why Toyota decided to take on the German automakers and how the new brand won praise and success for its unparalleled quality, unforgettable advertising, and unprecedented customer service. From the first boardroom planning session to Lexus's entry into the mega-luxury supercar market, this is the complete and compelling story of one of the world's most admired brands. Includes a new Foreword by legendary designer Erwin Lui, an Afterword with updates since the first edition, and a new Coda by leading Japanese automotive journalist Hisao Inoue Covers the racetrack triumph-and tragedy-behind the new US\$375,000 Lexus LFA supercar Offers important business lessons for brand managers and executives For car enthusiasts, business leaders, and anyone interested in branding and marketing, Lexus: The Relentless Pursuit offers an amazing story of excellence and innovation in the automotive industry.

An in-depth examination of the stunning supercars from Japan; the history & achievements of each car -- the ideals & the men who made them a reality. Includes technical specification panels as well as driving impressions on each car with an analysis of performance. Over 100 full-color photos throughout the book reveal all aspects of the cars. Includes: Honda Acura NSX; Lexus SC400; Mitsubishi 3000 GT VR-4; Nissan 300ZX; Mazda MX-5 Miata; Mazda RX-7; & hot rods.
